COME TO THE LIBRARY AND CHECK OUT NEW BOOKS. HERE'S A SAMPLING OF SOME OF OUR NEW ITEMS.

<p>Title:</p> 	<p>Alexander's Care of the Patient in Surgery (13th ed.)</p>
<p>Author/Editor:</p>	<p><i>Rothrock, Jane C. RN, FAAN</i></p>
<p>Publication data:</p>	<p>Brandon Hill Title</p>
<p>Call #:</p>	<p>WY 161</p>
<p>Abstract:</p>	<p>For more than 60 years, "Alexander's Care Of The Patient In Surgery" has been an essential, reliable resource for perioperative nursing. The detailed, state-of-the-art information in this edition reflects current procedures and promotes the delivery of comprehensive patient care. This text provides nurses with the tools needed to deliver safe, cost-effective, high-quality patient care.</p>
<p>Title:</p> 	<p>Bates' Visual Guide to Physical Examination: Set of 18 Modules on DVD</p>
<p>Author/Editor:</p>	<p><i>Bickley, Lynn S</i></p>
<p>Publication data:</p>	<p>Lippincott, Williams & Wilkins</p>
<p>Call #:</p>	<p>WB 205</p>
<p>Abstract:</p>	<p>Updated fourth edition provides 25 minutes of step-by-step examination footage with rationales. Patients and examiners represent diverse age groups and cultures to provide students with a well-rounded, realistic view. Emphasis is on health history and documentation and communication and patient/practitioner interaction.</p>

<p>Title:</p> 	<p>Nursing 2009 Student Drug Handbook</p>
<p>Author/Editor:</p>	<p>Lippincott Williams & Wilkins</p>
<p>Publication data:</p>	<p>Author</p>
<p>Call #:</p>	<p>QV 39</p>
<p>Abstract:</p>	<p>Nursing 2009 Student Drug Handbook provides comprehensive, student-focused information on over 750 generic and over 3,500 trade-name drugs in an easy-to-use A-to-Z format, including recently-approved drugs and indications. In order to reinforce students' learning, each entry is organized by the nursing process, including assessment, nursing diagnosis, planning and implementation, patient teaching, and evaluation. The book has High Alert logos, New Drug logos, and New Indication logos, and rapid-onset interactions are highlighted for safety. Other features include a 16-page full-color photoguide to over 200 tablets and capsules; coverage of 40 pharmacologic and therapeutic classifications with prototype drugs highlighted; nursing process sections in every drug entry; and I.V. administration sections with incompatibilities. Ancillaries on thePoint include more than 300 NCLEX-style questions, including alternate-format questions.</p>
<p>Title:</p> 	<p>Nursing without Borders: Values, Wisdom, Success Markers</p>
<p>Author/Editor:</p>	<p>Weinstein, Sharon M. MS, RN</p>
<p>Publication data:</p>	<p>Sigma Theta Tau International</p>
<p>Call #:</p>	<p>WY 107</p>
<p>Abstract:</p>	<p>This book is for all the nurses who have crossed their own borders, or might like to. It provides both visionary lessons and practical advice. It is part history, part business textbook, part travelogue, part how-to, and part inspiration. Divided into three sections Values, Wisdom, and Success Markers <i>Nursing Without Borders</i> reflects the international nursing experiences of a host of nurse leaders representing diverse cultures. These leaders, pioneers in global nursing, paved a path of international partnerships and documented their stories for those considering international work. The book ends with three additional sections</p>

	<p>offering success stories that are further broken out into Collaboration, Practice, and Education success stories. These stories do more than just affirm the premise of the previous nine chapters they share the trials and tribulations associated with their experiences and offer further wisdom of lessons learned.</p>
<p>Title:</p> 	<p>Nursing Informatics and the Foundation of Knowledge</p>
<p>Author/Editor:</p>	<p><i>McGonigle, Dee PhD, RN, FAAN</i></p>
<p>Publication data:</p>	<p>Jones and Bartlett</p>
<p>Call #:</p>	<p>WY 26.5</p>
<p>Abstract:</p>	<p>Nursing Informatics and the Foundation of Knowledge covers the history of healthcare informatics, current issues, basic informatics concepts, and health information management applications. With comprehensive introductory chapters that explain the core sciences of nursing informatics, students will understand Information Systems and incorporate their own knowledge for further comprehension. Based on The Foundation of Knowledge Model. 2007, this text explains how nursing informatics relates to knowledge acquisition, knowledge processing, knowledge generation, knowledge dissemination and feedback, all of which build the science of nursing. Key Features include: Key terms; Case studies; Best practice examples; Critical thinking exercises; Web resources; and Varied perspectives from Nursing Informatics experts</p>
