Anatomy & Physiology and Chemistry must include a laboratory component.

MATHEMATICS

MA 190 or MA 197	3
MA 295.....	3

ELECTIVE.....3

Student must take a 3 semester hour elective course of choice in any of the major content areas. It is recommended that anyone without any computer knowledge take a computer class to satisfy this elective.

A total of 59 semester hours are required for the prenursing curriculum. Hours may vary by institution. If hours total less than 59, an additional course(s) must be taken. Medical Terminology is suggested, however, additional hours in any of the five categories will be considered.

The requirements of the prenursing curriculum incorporate both the General Education Core Curriculum adopted by the Illinois Board of Higher Education and the Specific Courses required to support the nursing major.
